**Resources for Case Interviews**  
For UMass Amherst Students

Casing is an exercise that is not natural. The most important thing to do when prepping for a case interview is to start early, practice methodologically, and practice often. It is recommended to have completed at least 300 cases before going into a casing interview, specifically in consulting. Our hope is this document will be a good place to start preparing for these interviews.

**Books:**

- 1) Case in Point, Mark P Cosentino
- 2) Mastering the Case, Alex Chernev
- 3) Case Interview Secrets, Victor Cheng
